

HOLLAND IN BUSINESS

'After all, good export means good preparation'

ABOUT HOLLAND IN BUSINESS

Holland in Business is an international operating company that mainly deals with business development and mediation. We operate in many countries, particularly in the Middle East, Asia and Europe. Despite the young age of our company, our team brings years of experience with us because we have worked in these regions and thus know the markets in detail.

EXPORT

Our method for optimal export is based on three points:

- Good strategy
- Preliminary sessions
- Global trade analysis

NEW MARKETS

Providing your product on a new and unknown market can often be a tricky business. We can assist you in this. New markets have the advantage that your product is a novelty and often well received.

EXPOS

Local expertise and experience, important qualities that you will need to be able to praise your product on foreign markets. By working for years in the Middle East and Asia, we guarantee you good knowledge.

DISTRIBUTOR

A good distributor is well-located, has knowledge of his region and ensures that your product is well sold. We ensure that the right distributor delivers your product.

PRODUCTS

We offer high quality oils, saffron and other products at a competitive price. Of course, there is the possibility that we offer other products for you on request.

Our products include: Saffron, Almond oil, Cannabis oil, Cumin oil, Poppy seed oil, Nigella seed oil, Pumpkin seed oil, Rose flower oil and Viola oil

PARTNERS

SteellandIndustries.com

FIND A DISTRIBUTOR

Our experts have experience in finding representatives / distributors of your export. We help you in Europe, the Gulf States, the Middle East, Iran, Afghanistan, India and Africa.

After analysing the market in the country of choice, we propose a clear approach to finding a local partner/representative.

We will negotiate with you with distributors. Until your products are actually sold, we will be involved in the process so that no errors will occur.

Working with us means saving time and money.
